

YUGANDHARA SANJAY PARAB

Python Full Stack Developer | Building Responsive Web Applications

yugandhara.tech2025@gmail.com | Andheri (East), Mumbai | github.com/yugandharatech2025-parab | linkedin.com/in/yugandharaparab-921443388

PROFESSIONAL SUMMARY

Motivated and detail-oriented Python Full Stack Developer with hands-on experience in HTML, CSS, JavaScript, Python, and MySQL. Designed and deployed a live client website (Vakra Interiors) using Netlify and GitHub. Currently pursuing Python Full Stack certification at Keerti Institute. Passionate about building responsive, user-friendly web applications and continuously expanding technical skills.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, HTML5, CSS3

Frameworks & Libraries: Bootstrap, Django (learning), Formspree

Databases: MySQL

Tools & Platforms: Git, GitHub, Netlify, VS Code

Soft Skills: Problem-solving, Time management, Team collaboration

PROJECTS

Vakra Interiors Website | *HTML, CSS, JavaScript, Formspree, Netlify, GitHub*

Live Demo: <https://vakra-interiors.netlify.app>

- Designed and developed a fully responsive client website for Vakra Interiors from scratch.
- Implemented a lead collection inquiry form using Formspree for real client use.
- Deployed website on Netlify and managed full source code version control with GitHub.

Restaurant Menu Program | *Python*

- Built a console-based restaurant menu program using Python.
- Implemented order-taking, menu display, and total bill calculation using dictionaries and loops.

Fake Headline Generator | *Python (random library)*

- Built a console-based random headline generator using Python's random library.
- Generated humorous headlines from predefined word combinations.
